

The process of strategic development and deployment is fundamental to creating and running the institution by setting specific goals, objectives, and methodical by involving all concerned. The institution takes much care in using technology for collecting and integrating data on academic and administrative matters. The institutional strategic plan effectively deployed is in the field of art education during last academic years. Creation and exhibition of different kinds of paintings - Pot painting, Fabric painting, Palm leaf painting and clay modeling and formation of a music band named "REVSTAR" and music club. In the NEP of 2020 a prominent place is given to art education. The students who are talented in performing and visual arts are identified after the self-introduction and talents day programme conducted in the college. They are given special training by the art education faculty members. In the performing arts our specialization is music and in the visual arts our specialization is painting. Various activities are conducted such as exhibitions, music competitions, drawing competitions, painting competitions, beautification of campus of teaching practice school, beautification of college campus etc are carried out under strategic plan. Also experts in the fields are invited to the college for giving information about latest developments in these fields.
